I'm a product designer with 6 years of experience and a huge passion for visual problem solving. I studied visual communication at Wizo and UX/UI at Netcraft, and I work with Claude Code to take my designs from Figma to a working product.

Experience

Hello

2024-2026

Product Designer

Led UX/UI projects for a range of digital products, including complex systems, mobile applications, corporate websites, and digital assets. Worked both on existing products and from the initial concept and design stages.

Sabio

2023-2024

Graphic Designer

Designed for both digital and print media, including social media campaigns, newspaper advertisements, billboards, door hangers, fence banners, roll-up banners, and more.

Moosh Marketing

2020-2022

Marketing Designer / Product Designer

Took part in building the UX/UI department. Was in charge of the process from the client's requests to the figma prototype. Experienced wide variety of industries and projects.

Education

Netcraft Academy

2022

UX/UI

Learned planning, research, and interface design principles. Gained both theoretical knowledge and practical experience.

WIZO Academic Center

2019-2021

Visual Communication

Graphic design classes including: branding, magazine design, visual mindset, UX/UI, and in depth study of Adobe's apps.
